The route, up the mountain, is spectacular in scenery. We will stop at **AL HADA**, with its tourist market, great views and rose fields. **Lunch included.**

TAIF, this popular city with very modern shopping malls and great amusement parks, has numerous rose gardens. We will visit **"the city of dates"** –more or less active depending on the time of the year– and we will be able to taste this sweet fruit of the palm tree. Afterwards, we will have time to stroll through the city center, with its vegetable market, its great mosque, its jewelry souks and its activity. We will visit the **Al Oqilat Museum** that tells us about the traditions of Arabia and the customs of the region. Free time for lunch.

In the afternoon we will also visit the district of Al Turaif **DIRIYA**, a UNESCO World Heritage Site. This place - on the outskirts of Riyadh - was formerly the first capital of the Saudi dynasty, which we will be able to discover

thanks to the vestiges of its numerous palaces and the urban complex at the edge of the oasis of Ad-Diriya.

At the end of the day, we will visit the **Al Rajhi Mosque**, the largest mosque in Riyadh with its Andalusian style architecture, where **we will witness a prayer and have an introduction to Islam** that will surely make us learn something about this religion. Return to hotel.

You can walk through its vast esplanade and climb the hill but remember to do so in silence and respecting the hundreds of pilgrims surrounding us at any given time. At the **Mosque of Quba**, in the year 622, the prophet and his followers laid the first stone of what was to be the first mosque in history, although the present building is more recent. From here, we will walk to the nearby **garden and well of Ethiq** where the different tribes of the place went out to drink water and greet the Prophet and his companions recently arrived in Medina after their persecution in Mecca. Afterwards we will have some free time in the city center to stroll around the shopping areas or –if you wish– visit the Hejaz Railway Museum (in the former Ottoman railway station).

After that, we will stop to photograph externally the new **LIBRARY OF ALEXANDRIA**, inaugurated in 2002 with a very modern architecture that reminds us that this city, in the third century BC, was one of the greatest centers of

knowledge dissemination in ancient times. The Library of Alexandria at that time guarded more than half a million papyrus. **Lunch included** and continuation of our route to **ROSETTA**. In this small city, very close to the mouth of one of the tributaries of the Nile, the Rosetta Stone was found, just over a meter high, which was key to deciphering the hieroglyphic writing of the Egyptians since it contains the same text written in hieroglyphics, demotic and ancient Greek.
